TEETH!**

This Credit Plan means Good Dental Health for You— for Everyone in the Family!

- There is no need to neglect the care of your teeth—no need to mar your appearance or to suffer any discomfort or inconvenience.
- The entire family can benefit from this plan — regular dental treatment and care can prevent elaborate treatments in later life.
- Children require careful dental inspection — preventive professional treatment is most important!
- Only this plan carries with it **automatic life insurance** for the extra protection of you and your family. If anything should happen, your dental bills are immediately paid by one of the largest insurance companies on the continent.

How This CREDIT PLAN Operates

Essentially this plan is a simple, straightforward time payment operation — but with many advantages not available in ordinary credit systems.

There is no down payment required.

Payments can be extended to 18 months if you wish and the amount involved can be as low as \$40 and as high as \$400 — and more depending on individual requirements.

This plan — approved and endorsed by your own dentist — requires no membership fee and you need not contribute to it if you do not employ the services of your dentist.

This is an individual plan — there is no waiting period before you can start dental treatment — there is no need to involve anyone else or any other organization.

You Select The PAYMENT SCHEDULE

With the co-operation of your dentist — you can participate in this plan at an unusually low payment schedule. Once you have completed the forms and your credit plan has been approved, you select a suitable payment schedule and enjoy healthy — attractive teeth. All details can be discussed with your dentist or his assistant.
